EXPERIENCE

May - August 2015

Front-End Developer and Designer Co-op
OverStats Inc.   Kitchener, Ontario

- Worked with HTML, CSS, and Javascript on the Ruby on Rails framework to redesign pages for improved UI, UX
- Created an interactive deck builder using ReactJS, allowing users to select cards and create and edit new or existing decks
- Created a deck "central" for users to view popular and effective decks, as well as decks used in tournaments by professional players
- Created tests for my new features as well as improved existing tests in rspec
- Processed and interpreted large amounts of user data

EDUCATION

Sept 2014 - Present

University of Waterloo
Candidate for Bachelor of Computer Science
